Ideas for Final Project

CONTENT
hit word
- programmed:
    - one vote, up one px size
    - form: need to input name and email address
- a list of adjectives, by popular vote:
    - snarky. intelligent. pretty. cheeky. creative. smart.
- adjectives that receive most votes gets bigger
- div id="an ode to Heidi"
- 'this may looks immensely narcissistic ... but a list of adjectives describing me!([next line, smaller text:] i'm afraid all the pejoratives are gonna get too huge. they are pre-emptively removed, [strike through] communist China style.)

interactive map
- places travelled: by cities
- places:hover - colour gradient: indicating recency (i.e. Europe is light blue - recent; Philippines is dark blue - long time ago)

games
CSS selector learning game

search box

more infographics
- other content? land use in Hong Kong. 30% of urban land is unused/mismanaged/uninhabited.
- learn to present data graphically. (useful as web dev or not?)

EFFECTS & PRESENTATION
hover and blob of water effect
scroll: inspiration: http://ruyadorno.com/ - for the scroll effects in presenting portfolio work
